Life on Mars is a British science fiction television series that aired on BBC One from 2006 to 2007. The series follows the story of Sam Tyler, a police officer from the present day who is transported back in time to 1973. Sam must adjust to life in a very different era, while also trying to find his way back to his own time.

Life on Mars was a critical and commercial success, winning numerous awards and being nominated for several others. The series has been praised for its well-written characters, its gripping storylines, and its unique blend of science fiction, mystery, and political intrigue.

Characters

The main characters in Life on Mars are:

- **Sam Tyler** (John Simm): A police officer from the present day who is transported back in time to 1973.
- **Gene Hunt** (Philip Glenister): A hard-nosed and often ruthless police detective who is Sam's partner.
- **Alex Drake** (Keeley Hawes): A police officer who is more sympathetic to Sam's modern ways than Gene.

- **Philip Glenister** (Philip Glenister): A police officer who is Gene's second-in-command.

The characters in *Life on Mars* are all well-developed and complex. Sam is a fish out of water in 1973, and he must learn to adapt to the very different era. Gene is a tough and uncompromising detective, but he also has a soft side. Alex is a more modern and progressive police officer, and she often clashes with Gene's old-fashioned ways. Philip is a loyal and dedicated police officer, but he is also ambitious and ruthless.

Storylines

The storylines in *Life on Mars* are gripping and suspenseful. The series follows Sam as he investigates a series of murders and other crimes in 1973. Sam must also try to find a way back to his own time, while also dealing with the personal and professional challenges of working in a very different era.

Life on Mars is a unique blend of science fiction, mystery, and political intrigue. The series explores the social and political changes that took place in Britain in the 1970s, as well as the personal struggles of the characters.

Themes

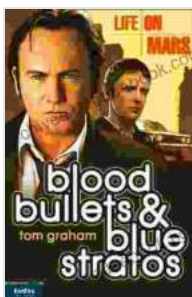

Life on Mars explores a number of themes, including:
