Conference Overview

The Third International Conference on Machine Learning for Cyber Security (ML4CS 2024) will be held in Guangzhou, China on October 10, 2024. The conference will bring together researchers, practitioners, and industry leaders from around the world to discuss the latest advances in machine learning for cyber security.

Machine learning is a rapidly growing field that has the potential to revolutionize many aspects of cyber security. By automating tasks and improving decision-making, machine learning can help organizations to defend against cyber attacks and protect their data.

The ML4CS 2024 conference will provide a forum for the exchange of ideas and the dissemination of new research findings. The conference will feature invited talks, paper presentations, and panel discussions on a wide range of topics, including:

- Machine learning for intrusion detection and prevention
- Machine learning for malware analysis and classification
- Machine learning for cyber threat intelligence
- Machine learning for cyber fraud detection
- Machine learning for secure software development

Important Dates

- **Paper submission deadline:** June 1, 2024
- **Notification of acceptance:** July 15, 2024
- **Camera-ready paper submission deadline:** August 15, 2024
- **Conference dates:** October 10-11, 2024

Call for Papers

The ML4CS 2024 conference welcomes submissions of original research papers on all aspects of machine learning for cyber security. Submissions should be no more than 10 pages in length, and should be formatted according to the IEEE Conference Proceedings format.

Papers will be peer-reviewed by a panel of experts in the field. Accepted papers will be published in the conference proceedings and will be available on the conference website.
